SUMMARY

Enthusiastic MERN Stack Developer with strong knowledge of React, Node.js, Express.js, and MongoDB. Skilled in developing responsive front-end interfaces, RESTful APIs, and database-driven applications. Passionate about creating efficient, user-friendly web applications and eager to apply problem-solving and full-stack development skills in real-world projects.

SKILLS

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Figma (UI/UX, Prototyping, Wireframing)
- Backend: Node.js, Express.js, PHP, Python
- Databases: MongoDB, MySQL
- Tools & Practices: RESTful APIs, Git/GitHub, Agile/Scrum, Debugging, Deployment
- Additional Languages: C, C++
- Soft Skills: Communication, Team Collaboration, Time Management, Creativity & Innovation

---

WORK EXPERIENCE

UI/UX Designer Intern, Zidio Development   Mar 2025 - May 2025

- Designed a responsive webpage for an e-learning platform focused on user-friendly navigation and engagement.
- Created wireframes, high-fidelity mockups, and interactive prototypes using Figma.

Relationship Manager, City Union Bank   Nov 2024 - Mar 2025

- Handled branch operations, customer service, and account management, ensuring smooth day-to-day functioning of the branch.
- Acted as Cashier for 3 months, maintaining precise cash handling, daily balancing, and compliance with audit standards.

Web Development Intern , Exposys Data Labs   Apr 2024 - May 2024

- Developed a responsive web page for an online flower shop, focusing on intuitive design and seamless navigation.
- Built interactive UI components using HTML, CSS, and JavaScript

---

EDUCATION

Integrated Master of Computer Application   Sep 2019 - May 2024

Amrita Vishwa Vidyapeetham

PROJECTS

Urbanora - E-Commerce Website (MERN Stack)   **Nov 2025**

- Technologies: MongoDB, Express.js, React.js, Node.js, Axios, JWT, bcrypt
- Developed a full-stack e-commerce web application that allows users to act as both buyers and sellers. Implemented secure authentication, product CRUD operations, and cart functionality to simulate a marketplace experience.

Key Features:

- User authentication with JWT and bcrypt.
- Product listing, search, and category/price filtering.
- Separate Cart and Wishlist schemas for efficient data handling.
- Role-based access for editing/deleting user products.
- Responsive UI with modern design and API integration.

ACCOMPLISHMENT

Research Project: Facial Skin Disease Detection

- Implemented Inception v3 using transfer learning to detect 10 facial skin conditions with enhanced hierarchical feature representation.
- Achieved 89.24% accuracy in classification through advanced image analysis techniques.
- Presented the paper at SFE and got published in the International Journal of Engineering Research in Computer Science and Engineering on 7th july 2024

CERTIFICATIONS

- MERN Stack (Techmindz)
- Advanced Python Programming (Udemy)
- Basics of Python (Google Coursera)
- Bits and Bytes of Computer Networking (Google Coursera)
- Technical Support Fundamentals (Google Coursera)
- Fundamentals of Digital Marketing (Google Coursera)
